

Sustainability Forum: No time to wait: Sustainable solutions for a brighter future!

Tuesday, 24 May 2022, Time 10:30hrs to 14:30hrs: Sunstar Hotel, Oberwiesstrasse 3, CH-7270 Davos

The **Swiss-Asian Chamber of Commerce** together with its co-operation partners **Archroma International AG, Engro Corporation, Embion Technologies SA, tide ocean SA, south pole and JTI International SA** kindly invites you to a forum on sustainable solutions to reach a carbon net zero commitment and to boost the circular economy.

With less than ten years to achieve the 2030 Agenda for Sustainable Development, it is crucial to balance our human aspirations with the planet's ability to sustain them. The Sustainable Development Approach sets the urgency for world leaders to strike a balance between economic, social and environmental elements when achieving economic development. All states are called upon equally to play their part in finding shared solutions to the world's urgent challenges. Lots of actions have been taken, but a great deal remains to be done – and there is no time to wait. We help our partners to understand, navigate, and lead the global discussion around environmental and social sustainability, and deliver market and policy insights to manage risk and perform in an era of rapid technological change.

Registration: Please register with the following link <https://forms.gle/SXUSpPr5L5VvkmGN9> until **10 May 2022** at the latest.
