

SUSTAINABILITY: WHAT WE KNOW AND HOW YOU CAN ACT!

Online Webinar: Wednesday, 27 October 2021, Time 10:00 to 11:30hrs

The **Swiss-Asian Chamber of Commerce** kindly invites you to an online - event on sustainability, energy and net-zero emissions, circular economies, the Earth's resources, social sustainability, resilience, and adaptation. With less than ten years to achieve the 2030 Agenda for Sustainable Development, there is a renewed priority to balance our human aspirations with the planet's ability to sustain them.

This means that all states are called upon equally to play their part in finding shared solutions to the world's urgent challenges. In addition, incentives are to be created to encourage non-governmental actors to make an increasingly active contribution to sustainable development.

We help our partners to understand, navigate, and lead the global discussion around environmental and social sustainability, and deliver market and policy insights to manage risk and perform in an era of rapid technological change.
